Description

Set in a very desirable neighborhood, this 1960 ranch house is a perfect family home. Four bedrooms and two baths with 2240 sq. ft. of living space on two levels make it ideal. The open plan living room and dining area has solid oak flooring. A kitchen with ample storage, two bedrooms and a full bath complete the main level. The full finished basement houses another two bedrooms, both with egress windows, and another bathroom (3/4 bath with shower). The basement also houses a family room, kitchenette, utility room, mechanical room and additional storage. A detached single car garage is oversized with work space at the rear and a carport at the front. The fenced back yard has alley access as well as additional parking. There are two garden sheds. This home is in a prime location close to walking trails, the city park, high school, college and the new hospital. It is in an established neighborhood with mature trees for shade.
