Description

A 1 ½ story Craftsman style home with many updates, including new windows! Designed with a family in mind with a large living room open to a spacious remodeled kitchen (with appliances). Two bedrooms and a full bathroom complete the main floor. The upstairs is a multi-use room with a large closet and could be a bedroom, office or perhaps a playroom! The recently remodeled basement includes a family room, two bedrooms, a full bath PLUS a large master bedroom, ensuite full bath and walk in closet. An outside entrance to the basement is a convenient update as well. In 2018, a large 24 x 44 garage was added to the property along with a wood deck and fencing in the backyard with all new backyard lighting! The three-car addition has garage doors to the front yard and back yard where there is alley access. A separate shop space with heat and a/c provides ample room for projects and crafting!
